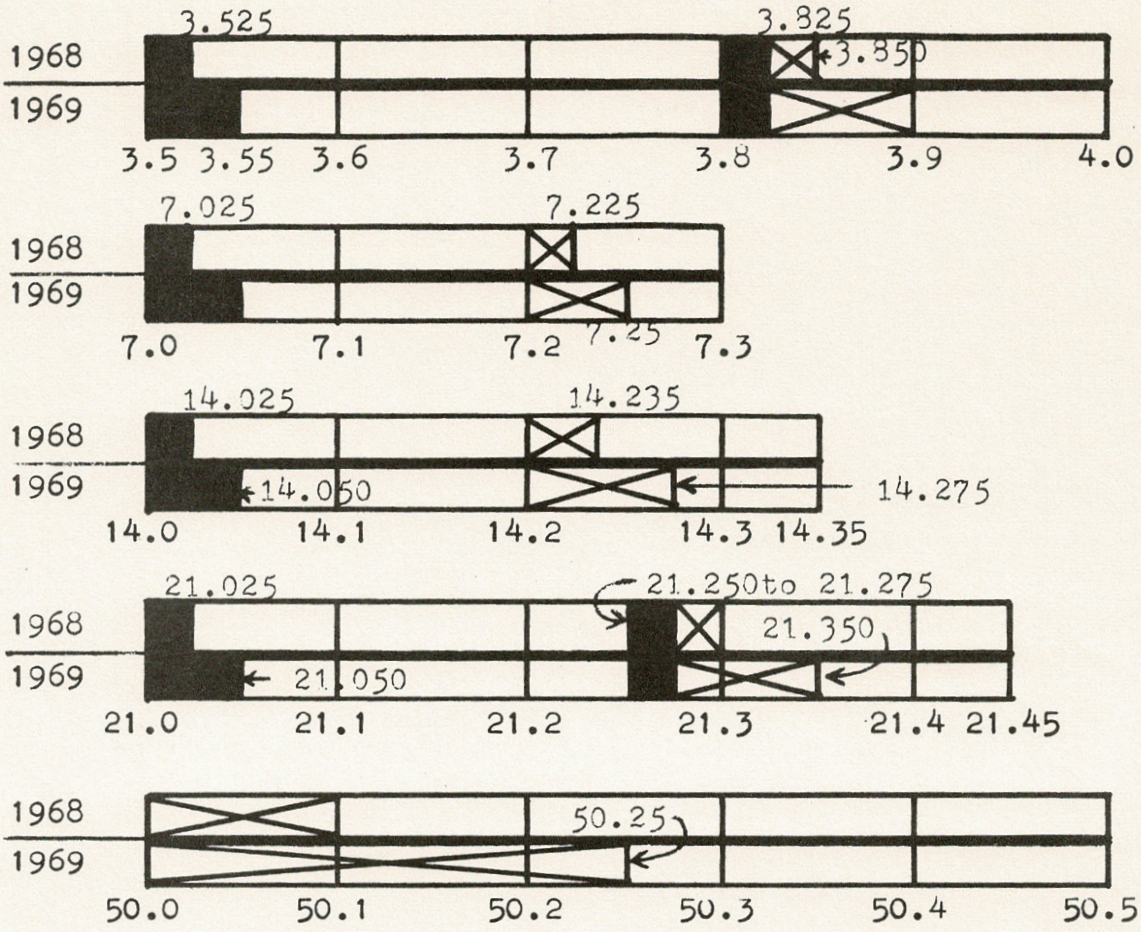
THIS IS WHAT THE AMATEUR SPECTRUM WILL LOOK LIKE IN '68 & '69 !



■ - EXTRA CLASS ONLY

⊠ - ADVANCED AND EXTRA CLASS ONLY

□ - GENERAL, ADVANCED AND EXTRA CLASS

Apparently no modification of the 10-meter band or the bands above 50 MHZ is planned.

No mention is made of any change to the Technican Class license. The other points are:

1. Advance Class is re-established, with the present holders of Advance license validated.
2. Novice licenses will run for two years, but they will lose two-meter phone privileges.
3. Holders of Extra Class with 25 years license of any Amateur Class may request a two-letter call, while they last. No choice of call letters.
4. You must hold an Advanced Class, or take the Advanced exam before Extra Exam. Probably may be taken simultaneously, if time permits. See details in QST or CQ.
5. The changes begin on November 22, 1967, but band changes wait until 1968 and 1969.
